Course Outcomes

Name of Programme: Certificate Course on ***Solar Photovoltaic and Solar Thermal Energy***
Type of Programme: Certificate Course
Programme Code: PHYCC-001
Course Code: SPSTE-002
Academic Year: 2018-19

1. Students learned features of Solar Photovoltaic and Solar Thermal Energy.
2. Students learned the various features of the solar radiation coming on the earth surface and designing of solar photovoltaic system.
3. Students learned various coating used for the harvesting the solar thermal energy.
4. Students are able to use solar thermal energy equipment's and use of them.
5. Major outcome is students are able to design the solar system for the house hold purpose.

Mr. Anil B. Gite
Co-ordinator

Dr. G. H. Jain
