**'Department of Zoology' organize National Seminar
on
Apiculture (Bee Keeping)**

'Bee keeping' is also known as 'Apiculture' is an ideal subsidiary enterprise offers an immense potential for providing employment. Apiculture is the technique or farming practice which involves the production of honey, beeswax, royal jelly, flower pollen, and bee pollen. Apiculture is an economically viable technology of agricultural diversification having prime significance for human health care & nutrition. Bee keeping needs less space with low investment but fetches quick returns & generates employment opportunities. In addition to this, honey bees also contribute to the preservation of nature by collecting flower pollen, bee pollen, etc.

Objectives of the Seminar

- Bee keeping techniques
- Bees & Bee culture
- Product of Honey bees

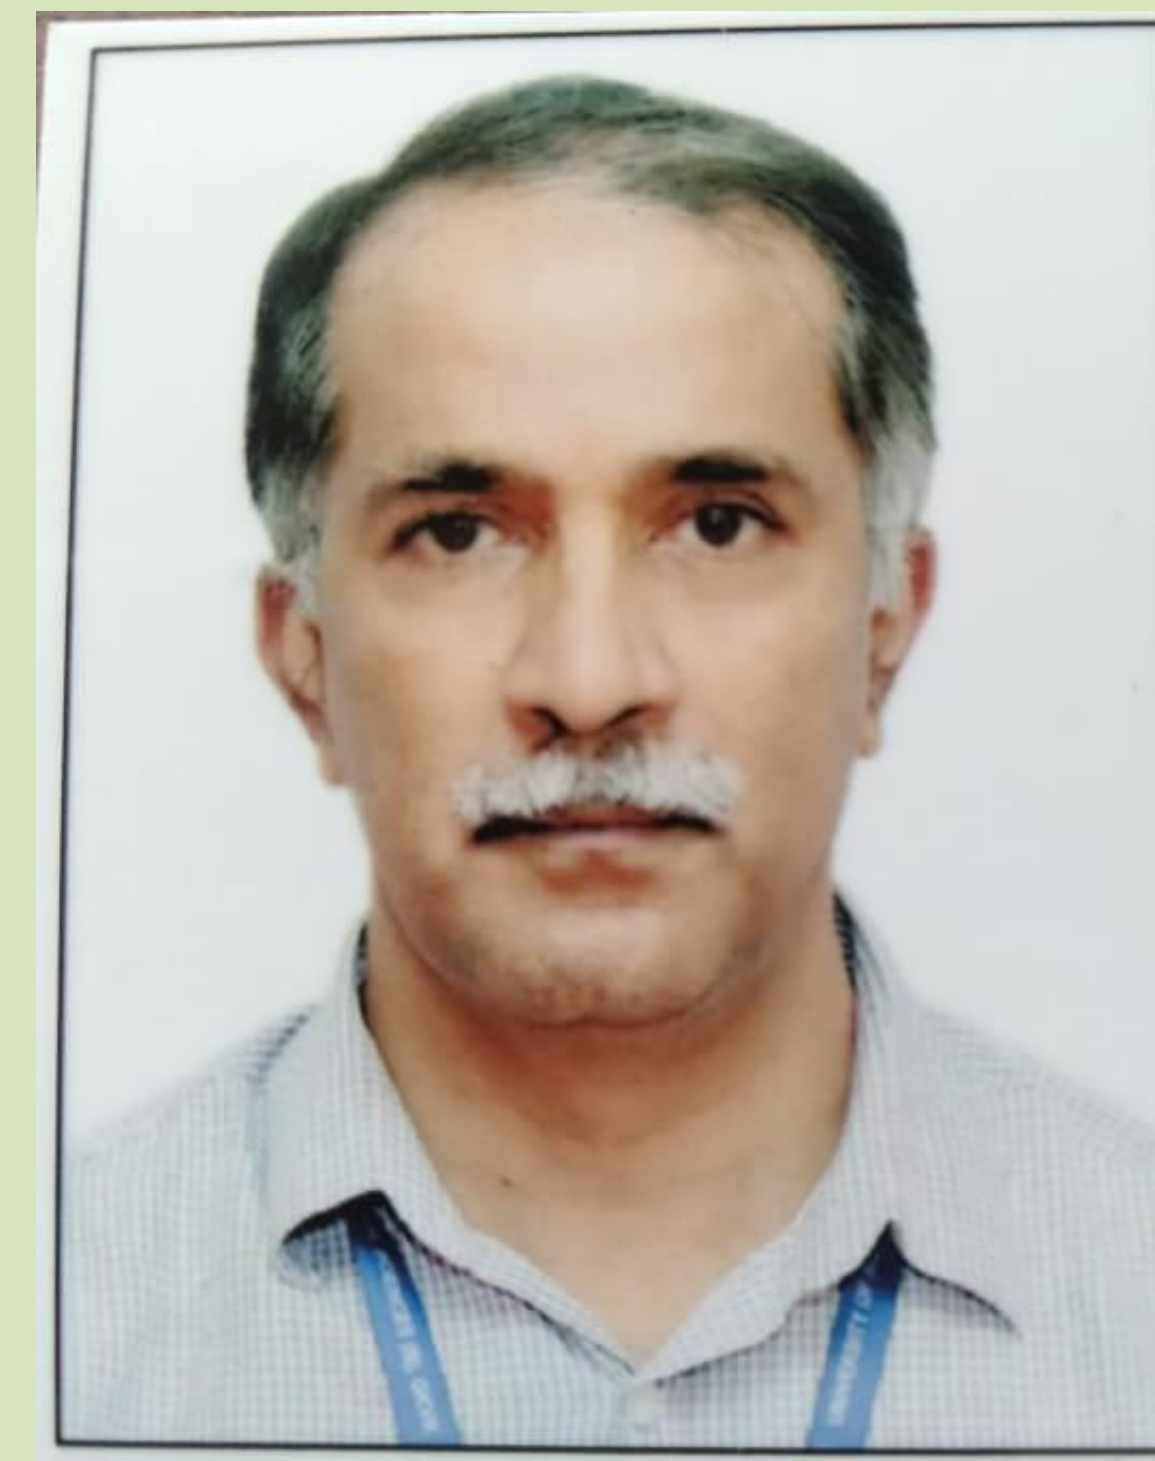

Prof. (Dr.) K.S. Jagadish
Head, Dept. of
Apiculture,
University of Agricultural
Sciences, Bengaluru

Dr. Ramnath B. Andhale
Asst. Professor,
Dept. of Zoology,
KTHM College Nashik-2

**Venue, Day &

Report on Apiculture (Bee Keeping)

'Bee keeping' is also known as 'Apiculture' is an ideal subsidiary enterprise offers an immense potential for providing employment. Apiculture is the technique or farming practice which involves the production of honey, beeswax, royal jelly, flower pollen, and bee pollen. Apiculture is an economically viable technology of agricultural diversification having prime significance for human health care & nutrition. Bee keeping needs less space with low investment but fetches quick returns & generates employment opportunities. In addition to this, honey bees also contribute to the preservation of nature by collecting flower pollen, bee pollen, etc.

Department of Zoology organised online webinar on Apiculture. It was very informative webinar for students of UG & PG. More than 79 students participated for the said webinar.
