and ...Sarvesh Life sciences pvt Ltd. Nashik.....  
The MoU will be valid for the period 'as per the course' and may be renewed by mutual consent.

Recognize the importance of the industry partner within its field of expertise. The MoU will enable the parties to Bring in community orientation in the academic transactions of the Institute. Foster research collaboration between the college and the industry set the ground for long term college industry partnership. Strengthen the innovative capacities of the industry and advance industry driven research and innovation.

### Background

The Memorandum of Understanding will be submitted to the UGC as a part of implementation of B. Voc. programme under XII plan of the UGC with a view to integrating relevant skills into higher education, increasing employability of students and facilitating life-long learning. The scheme is going to benefit the students who are willing to take jobs at the earliest opportunity. The scheme would attract the attention of the students who do not pursue higher education because they think the traditional framework of higher education fails to inculcate the proficiencies that are pre-requisites in highly competitive job market. The commencement of employment oriented course will open up new avenues to the students who are mostly economically deprived and do not have adequate facilities of exposure to rapidly changing industrial field.

The Course will be taught and monitored adhering to the guidelines of the UGC. A Board of Management will be constituted & has the following members.

- |   |  |
|---|--|
| 1. Chairman of BOM                          | : Chairman of College Managing Committee                           |
| 2. Co-Chairman                              | : Industrial Partner with whom MoU is signed or his Representative |
| 3. Representative of Affiliating University |  |

4. Representative of Relevant Industries
5. Representative of Industrial Associations
6. Representative from Local Bodies
7. Representative of the State Government
8. UGC Nominee
9. Secretary : Principal of the College

The Board of Management will be a Governing Body for B. Voc.

The college possesses adequate infrastructure and faculty to effectively implement the scheme. Thrust of the scheme is upon generating the sources of earning within traditional structure of higher education. Placement is the most essential part of the scheme. Therefore it has social relevance and utility. It is going to bring excellent results to both the industry and the college. It will provide skilled, qualitatively better efficient human resource to the industry and the industry will provide (some) means of livelihood to the students. In a way there would be mutual sharing of responsibilities and gains. It would enable both the parties to achieve the goal of sustainable growth in their respective areas.

The MoU will enhance the quality of education, imparted at the college. It will make a positive impact on the enrollment of the students. The collaboration will give industry an opportunity to have a fresh look at academic transactions and suggest some revisions, new pedagogical techniques and reforms in evaluation patterns.

## **Article II – Scope of the MoU**

The co-operation area includes

- Skill development through “out of classroom techniques”.

**And**

The Parties have entered into this MoU because they;

- Recognize the mutual interest in the field of research, training and development and dissemination of knowledge.
- Recognize the importance of higher education institute's role in promoting industrial collaboration and increased contribution to social development of the area.
- Recognize the importance of the industry partner within its field of expertise.

The MoU will enable the parties to:

Bring in community orientation in the academic transactions of the Institute.

Foster research collaboration between the college and the industry.

Set the ground for long term college industry partnership.

Strengthen the innovative capacities of the industry and advance industry driven research and innovation.

## **Background.**

The Memorandum of Understanding will be submitted to the UGC as a part of implementation of B. Voc. programme under XII plan of the UGC with a view to integrate relevant skills into higher education, increasing employability of students and facilitating life-long learning. The scheme is going to benefit the students who are willing to take jobs at the earliest opportunity. The scheme would attract the attention of the students who do not pursue higher education because they think the traditional framework of higher education fails to inculcate the proficiencies that are pre-requisites in highly competitive job market. The commencement of employment oriented course will open up new avenues to the students who are mostly economically deprived and do not have adequate facilities of exposure to rapidly changing industrial field.

The Course "**RENEWABLE ENERGY MANAGEMENT**" will be taught and monitored adhering to the guidelines of the UGC.

**A Board of Management will be constituted & has the following members.**

1. Chairman of BOM : Chairman of College Managing Committee
2. Co-Chairman : Industrial Partner with whom MoU is signed or his Representative
3. Representative of Affiliating University
4. Representative of Relevant Industries
5. Representative of Industrial Associations
6. Representative from Local Bodies
7. Representative of the State Government
8. UGC Nominee
9. Secretary : Principal of the College

The Board of Management will be a Governing Body for B. Voc.

The college possesses adequate infrastructure and faculty to effectively implement the scheme. Thrust of the scheme is upon generating the sources of earning within traditional structure of higher education. Placement is the most essential part of the scheme. Therefore it has social relevance and utility. It is going to bring excellent results to both the industry and the college. It will provide skilled, qualitatively better efficient human resource to the industry and the industry will provide (some) means of livelihood to the students. In a way there would be mutual sharing of responsibilities and gains. It would enable both the parties to achieve the goal of sustainable growth in their respective areas.

The MoU will enhance the quality of education, imparted at the college. It will make a positive impact on the enrollment of the students. The collaboration will give industry an opportunity to have a fresh look at academic transactions and suggest some revisions, new pedagogical techniques and reforms in evaluation patterns.

## **Article II – Scope of the MoU**

The co-operation area includes;

- Skill development through “out of classroom techniques”.
- Identifying and integrating skills that are needed in job-markets.
- Industry and research activities
- Visits and guidance of expert faculty.
- Placement of students.
- Exchange of scholarly information through seminars and conference.

**MEMORANDUM OF UNDERSTANDING**  
**BETWEEN**

1. SNJB's Karmavir Keshavlalji Harakchandji Abad Arts, Shriman Motilalji Girdharilalji Lodha Commerce and Science College, Chandwad, Dist.: Nashik.
2. Ozone Diagnostics, Pune and

This Memorandum

of Understanding is entered into as of 16/4/2015 between SNJB's Karmavir Keshavlalji Harakchandji Abad Arts, Shriman Motilalji Girdharilalji Lodha Commerce and Science College, Chandwad and ....Ozone Diagnostics, Pune.....

The MoU will be valid for the period 'as per the course' and may be renewed by mutual consent.

The Parties have entered into this MoU because they

Recognize the mutual interest in the field of research, training and development and dissemination of knowledge and

Recognize the importance of higher education institute's role in promoting industrial collaboration and increased contribution to social development of the area.

Recognize the importance of the industry partner within its field of expertise

The MoU will enable the parties to:

Bring in community orientation in the academic transactions of the Institute.

Foster research collaboration between the college and the industry

Set the ground for long term college industry partnership.

Strengthen the innovative capacities of the industry and advance industry driven research and innovation.

## Background

The Memorandum of Understanding will be submitted to the UGC as a part of implementation of Community Colleges programme under XII plan of the UGC with a view to integrating relevant skills into higher education, increasing employability of students and facilitating life-long learning. The scheme is going to benefit the students who are willing to take jobs at the earliest opportunity. The scheme would attract the attention of the students who do not pursue higher education because they think the traditional framework of higher education fails to inculcate the proficiencies that are pre-requisites in highly competitive job market. The commencement of employment oriented course will open up new avenues to the students who are mostly economically deprived and do not have adequate facilities of exposure to rapidly changing industrial field.

The Course will be taught and monitored adhering to the guidelines of the UGC. A Board of Management will be constituted. It will consist of the following members.

- |  |  |
|--|--|
| 1. Chairman of BOM                           | : Chairman of College Managing Committee                           |
| 2. Co-Chairman                               | : Industrial Partner with whom MoU is signed or his Representative |
| 3. Representative of Affiliating University  |  |
| 4. Representative of Relevant Industries     |  |
| 5. Representative of Industrial Associations |  |
| 6. Representative from Local Bodies          |  |
| 7. Representative of the State Government    |  |
| 8. UGC Nominee                               |  |
| 9. Secretary                                 | : Principal of the College   |

The Board of Management will be a Governing Body for Community College.

The college possesses adequate infrastructure and faculty to effectively implement the scheme. Thrust of the scheme is upon generating the sources of earning within traditional structure of higher education. Placement is the most essential part of the scheme. Therefore it has social relevance and utility. It is going to bring excellent results to both the industry and the college. It will provide skilled, qualitatively better efficient human resource to the industry and the industry will provide (some) means of livelihood to the students. In a way there would be mutual sharing of responsibilities and gains. It would enable both the parties to achieve the goal of sustainable growth in their respective areas.

The MoU will enhance the quality of education, imparted at the college. It will make a positive impact on the enrollment of the students. The collaboration will give industry an opportunity to have a fresh look at academic transactions and suggest some revisions, new pedagogical techniques and reforms in evaluation patterns.

## **Article II – Scope of the MoU**

The co-operation area includes

- Skill development through “out of classroom techniques”.
- Identifying and integrating skills that are needed in job-markets.
- Industry and research activities
- Visits and guidance of expert faculty.
- Placement of students.
- Exchange of scholarly information through seminars and conference.
